Philosophy is the main stream education imparted from Chinmaya Mission Balavihars. All the classes and groups are mainly divided according to age group of participating children. All the classes include prayers, chanting in Vedic format and exposure to Indian tradition and culture. Apart from Philosophy, Chinmaya Mission of Orlando is also imparting language classes to enable our children read, write and understand native Indian languages. This is a big task undertaken by the Ashram as Mission becomes the only place for our youth where they can be exposed to our native languages as a group and community. Language classes include but are not limited to Hindi, Gujarati, Tamil, Telugu. Again these language classes are divided according to the age of participating children.
